

EXAMPLE OF THE APP IN A REAL-LIFE SITUATION

A tutorial showing the app in use in a real-life situation is attached. (Click on the image below for a hyperlink to a larger image).

Figure 1. Parameters of the app: “on foot” or “by car” mode.

We used our Android phone at the [22nd San Sebastian Horror and Fantasy Film Festival](#) (Basque Country, Spain) to guide us to the Teatro Principal theatre at Calle Mayor 1-2, where some of the films in the festival were showing. First we entered the destination address. (Click on the image below for a hyperlink to a larger image).

Figure 2. Destination address (C/ Mayor 1-2, San Sebastian).

We left the motorway at the Zarautz (Gipuzkoa) exit and continued along the coast road towards San Sebastian. At the entrance to the city via Amara we were not sure which way to go, so we called up our app. (Click on the image below for a hyperlink to the video).

Figure 3. Driving into the city via Amara.

We left the car in a car-park on the Boulevard and walked towards the Town Hall. We decided to enter the same address in the app, but this time in “on foot” mode. (Click on the image below for a hyperlink to the video).

Figure 4. On the Boulevard in “on foot” mode.

We reached the Teatro Principal in San Sebastian.
